Find and compare 3D printing filaments by price, type, manufacturer, and properties. Compare prices across top filament brands.

This one has 4 double sectors with smaller inner windows that run to the filament start, plus a bar that doesn't run up to the filament start and serves-ish as inspection hole.

This one has 4 double sectors with smaller inner windows that run ...

Calculate Filament Length. Select Filament Type PLA ABS SAPET GNYLON POLYCARBONATE HIPSTPUTPEP MMA. Select Diameter 1.75 ...

This updated guide breaks down each type -- from everyday PLA to high-performance PEEK -- so you can print smarter.

Yes, filament really isn't measured with length like I said, but mostly by weight so if you can weigh your filament you can get a good estimate on how much you can print.

This filament guide offers a comprehensive comparison of properties, application, and printing requirements for Bambu filaments, aiming to help users select the best-suited material for needs.

- High Quality: Time To 3D PLA+ filament is an upgrade to normal PLA with enhanced required properties for best 3D printing results. PLA+ prints have a superior surface finish and are highly rigid ...

Geeetech 3D Pen PLA filament provides 20 kinds of colors, 10 Meters per color, a diameter is 1.75mm, and it has no bubbles, and no smell.

Track, compare, and look up your 3D printing filaments with our comprehensive database. Join thousands of makers sharing their data and managing their filament inventories. Add your spools and ...
