

PLC Splitter Modules are available in the form of either plastic module cassette (an ABS box) with ruggedized fiber jackets of 2mm and up to 3mm, or LGX metal box for plug and play splitter ...

This PLC splitter was housed in a compact ABS box and assembly with the SC/APC pigtails. Therefore, it offered strong protection for inner optical components and allowed quickly installing in the field.

Our 1x64 ABS PLC Splitter optical fiber plc splitter with Connector is an essential piece of equipment for any fiber optic network. With one input and 64 output channels, this splitter offers the perfect solution ...

They are all with superior optical performance, high stability and high reliability to meet various application requirements. The 1 64 2U Rack Mount Fiber PLC Splitter supports SC, LC, FC & ST ...

The 1X64 ABS Box PLC Splitter With SC Connector is a versatile and efficient solution for distributing optical signals in optical fiber networks, making it suitable for applications such as FTTX (Fiber to the ...

The 1&#215;64 ABS box module type PLC Splitters have high performance in terms of ...

The ABS Box PLC Splitter with its compact structure and small volume, are very convenient for use and can be installed in many places, such as: 19 inch racks, cross connect cabinet and some other devices.

The 1x64 plug - in optical splitter is suitable for PON networks, FTTX, etc., with low insertion loss and high reliability within its operating wavelength range.

The 1&#215;64 ABS box module type PLC Splitters have high performance in terms of low insertion loss, low PDL, high return loss, and excellent uniformity over a wide wavelength range from 1260nm to ...

With its compact structure, stable optical characteristics, robust performance and reliable certification, FS PLC splitter solutions strengthen your network infrastructure and facilitate smooth communication ...
