

We offer a comprehensive range of high-quality, MSA-compliant 1x9 optical transceivers designed for maximum performance and longevity in demanding applications.

Learn about the types of COVID-19 treatments, symptom management, and recovery. Information for healthcare workers about COVID-19. Guidance, tools, and resources for health departments to ...

There is no cure for COVID-19, but individuals can be protected against severe illness through vaccination. Learn about the symptoms, treatment, and prevention of COVID-19.

This fiber optic transceivers series are supplied in the industry-standard 1x9 SIP package style with a duplex SC, ST, and FC connector interface. They are high ...

Coronavirus disease 2019 (COVID-19) is an illness caused by the virus SARS-CoV-2. Learn more about the symptoms, risks and ways to protect yourself.

We specialize in 1X9 Optical module series, SFP series, Optical fiber patch cord & cable series, Optical fiber adapter series, Optical fiber distribution frame series, Optical fiber splice closure series, Optical ...

Normal optical input levels to the receiver result in a logic "1" output, VOH, asserted. Low input optical levels to the receiver result in a fault condition indicated by a logic "0" output VOL, deasserted.

The Optical Zonu TTL Series of OEM fiber optic transmitter and receiver modules facilitate the transport of timing (and other) signals that are not modulated onto RF carriers, over long distances of fiber.

The L9-FC315501-60PPC is a high-performance 1x9 TTL optical transceiver module designed for long-distance fiber optic communication in UAV air-ground systems, industrial control, and harsh ...

Get the latest news stories and videos on the Coronavirus with trackers on vaccines, hospitalizations, and deaths.

COVID-19 is caused by the SARS-CoV-2 virus, which spreads through the air in infectious respiratory particles from an infected person. Transmission is more likely in close contact or shared indoor ...

OptixCom's 1x9 DSC transceiver provides a low cost and compact solution for general data communication links. This single mode transceiver is designed with high performance 1550 nm laser.

1x9 BiDi optical modules adopt innovative Wavelength Division Multiplex technology to transmit and receive

signals simultaneously through only one single fiber.

This fiber optic transceivers series are supplied in the industry-standard 1&#215;9 SIP package style with a duplex SC, ST, and FC connector interface. They are high-performance, cost-effective optical ...

Integrated circuits and reference designs help you create a smaller and faster optical module design used in high-bandwidth data communication applications. Whether you are creating a 100-Gbps or ...

COVID-19 (coronavirus disease 2019) is a respiratory illness caused by the SARS-CoV-2 virus. It is very contagious, and spreads quickly. Most people with COVID-19 have mild respiratory symptoms that ...
