

# 288-core wall-mounted optical distribution box

The OptiTect® Indoor Local Convergence Cabinet, LS Series provides everything ...

- o High Fiber Capacity: With a capacity of 288 fibers, the ODF can accommodate a large number of fiber connections, making it suitable for high-density fiber optic networks.
- o Efficient Fiber Management: ...

The Wall-Mounted FTTH Fiber Optic Distribution Terminal Box is designed to provide a compact, reliable, and secure solution for fiber optic cable distribution in FTTH (Fiber to the Home) networks.

Its robust structure ensures stable performance in demanding telecom environments. This ftth fiber distribution box supports up to 288 fiber cores and accommodates 24 pcs 12-core splice trays, ...

Datacom Indoor Wall-Mount Fiber distribution enclosure (WODF) is designed for managing high-density fibre splicing in Building Entrance and Floor Telecom facilitates fulfilling FTTH requirements.

The OHC 288 houses 48 feed/pass-thru adapters and 288 distribution adapters for fiber distribution to high density buildings with many potential subscribers. OHC are constructed from powder-coated ...

The OptiTect® Indoor Local Convergence Cabinet, LS Series provides everything necessary to manage up to 432 distribution fibers for indoor FTTx applications. All cabinets share the same intuitive and ...

FTTH Box comply with salt spray test, crush test and temperature cycling under international standard. All are RoHS, and REACH certified to ensure the safety and security.

FTTH Box comply with salt spray test, crush test and temperature cycling under international standard. All are RoHS, and REACH certified to ensure the safety ...

A valve is applicable to the box body (Polymer Modified Plastics) for air pressure measurement. The max capacity of this closure is 288 (single fiber) and 1152 (ribbon fiber, 6-core/ 12-core splice trays ...

Our 288-core Pedestal/Wall Mounted Connectorized solution is a compact and versatile fiber optic connectivity option designed for efficient cable termination and connectivity.

Explore optical distribution frames (ODF) with efficient distributed chassis solutions at CommScope
