

Palestine's AI ecosystem is supported by local startups such as RedCrow and iConnect Technologies, alongside collaborations with international organizations. Institutions like An-Najah National ...

CulturePulse's AI model promises to create a realistic virtual simulation of Israel and the Palestinian territories. But don't roll your eyes: It's already been put to the test in other...

In January of 2024, the company entered a new "strategic partnership" to provide the Israeli regime with artificial intelligence systems to process surveillance data on Palestinians and ...

Collectively, Palestinian bodies provide Israel with data to train and feed its AI systems, at the same time as they are targeted and killed by those systems. The tabulation of Palestinian ...

U.S. tech giants have quietly empowered Israel to track and kill many more alleged militants more quickly in Gaza and Lebanon through a sharp spike in artificial intelligence and computing services.

U.S. tech giants have quietly empowered Israel to track and kill many more alleged militants more quickly in Gaza and Lebanon through a sharp spike in artificial ...

Israeli forces are using artificial intelligence and cloud services sold by OpenAI, Google, Amazon and Microsoft.

That data is then used to augment the deadliness of AI systems that target and kill others. The latest use of algorithmic target-generation systems in Gaza exemplifies how the data needs of lethal AI systems ...

We support anyone with a meaningful idea, whether it's working against media censorship, using tech to aid protests, scaling boycotts, pushing for tech divestment, supporting Palestinian entrepreneurs, or ...

We examine how emerging military tech is used in war zones and how Palestinians try to use tech to their advantage.

In January of 2024, the company entered a new "strategic partnership" to provide the Israeli regime with artificial intelligence systems to ...

AI is being used to decide which bloodlines will continue to exist in Palestine. In just the first four weeks of bombing, Israel killed all of the members of more than 600 families in Gaza.
