

Inspired by the development of novel technologies such as Artificial Intelligence, this article argues that the current usage and development of such technologies can ...

As artificial intelligence (AI), cloud computing, and digital services expand globally, Afghanistan represents an emerging frontier for foundational digital infrastructure development.

This article delves into the technical aspects of AI integration within AfTel, exploring its potential applications across network optimization, customer service, cybersecurity, and ...

In Afghanistan, where infrastructure challenges are prevalent, deploying advanced AI technologies can be difficult. Roshan must address issues such as limited internet connectivity and ...

GIGABYTE's comprehensive line of AI Servers primarily utilizes 2.5" storage bays due to the larger capacity and hot-swappable design, which allows the bays to be conveniently removed or ...

Using the methodology developed by assistant professors Signe Lai and Sofie Flensburg (2019) from the University of Copenhagen, this study traces the underlying infrastructures that allow - or ...

Discover our AI servers tailored to your every need. Our team of experts are able to answer your need in order to handle heavy workloads necessary for AI.

Inspired by the development of novel technologies such as Artificial Intelligence, this article argues that the current usage and development of such technologies can foreshadow possible...

The following timeline represents the efforts of Afghanistan to be ahead on the AI race. For see more information about AI regulations and initiatives worldwide, visit our Regulation Report.

AI servers accelerate model training and real-time inference, delivering powerful computing with CPUs, GPUs, and specialized AI accelerators. Their scalable and efficient architecture enables businesses ...

To support the UNICEF Regional Office for South Asia's integration of digital tools, technologies, and best practices into Social and Behaviour Change (SBC) programming, this Digital Mapping outlines ...
