

Prysmian introduces its latest cold-applied splice technology into the North American medium voltage cable accessories market. The Elasplice® splice is quick and easy to install, saving time and cost ...

This cold shrink tubing includes sealing mastic on either end for water resistance and a more secure fit than other cold shrink tubing. It insulates and protects low-voltage splices in direct-bury applications.

3M electrical splices feature cold shrink technology, which is engineered for easy installation by unwinding the inner core. Reduce the time, labor and cost that comes with electrical cable splicing. ...

These cold applied splice sealing products are made of specially silicone rubber and offer excellent insulation and moisture in-line cable connector systems or elbow to cable jacket applications.

Slide the tubing over wire and cable and pull out the core. When the core is removed, the tubing contracts and conforms to the underlying cable. The length shrinks by several inches. Made of ...

Our Raychem CSJA-1C In-Line Joint Cold Shrink for 1/C shielded cable from 15 kV to 35 kV, is designed to splice tape shield, wire shield, LC shield, UniShield, JCN and flat strap shielded cables. ...

Rubber Splice Kit, Cold Shrink, 5/8 kV, Shielded and Non-Shielded Cable, Conductor Range: 6 - 4/0 AWG Copper or 6 3/0 AWG Aluminum. Cable Insulation Range Size: 0.45" - 0.88";.
