

Cable tray with a span of 15 meters

Choose from our selection of cable trays, including over 850 products in a wide range of styles and sizes. Same and Next Day Delivery.

The Ladder Tray features light, rugged, tubular steel construction. It is designed for mechanical support and strain relief in long runs of cable and creates a smooth gradual bend for cable. Rail and stringer ...

Our wind certification report provides you with list of acceptable B-Line series cable tray supports, fittings and covers based off of the environmental conditions, cable loading, and type of cable tray in your ...

Cable tray length is selected based on the load to be supported, the distance between the supports (also referred to as the span), and handling and installation constraints.

Using the charts on the next page, determine the correct class of tray as it relates to your desired loading capacity per foot and support span. You will also need to know the weight of the cable and at ...

All calculations and data for AH1-8 series are based on cable tray with rungs spaced on 12" centers with tray supported as simple spans with deflection measured at the midpoint.

Use this cable tray sizing calculator to check fill %, select tray size, and comply with IEC 61537 & NEC 392 with formulas, example and checklist.

The straight sections and fittings feature perforations along the side rail to allow you to quickly and easily alter the system. Plus, add-rung-kits allow you to add rung at any location along the length of the tray ...

Snap Track was developed as a limited-width cable tray system to replace wire basket tray, conduit, and generic tray. It is stronger, provides better cable protection, and reduces installation costs through its ...

When fitting cable trays and their accessories, the products are cut on site to create changes of direction, adjust sections, etc. Damage can also occur during handling; as a result, both the ...

The National Electrical Manufacturers Association (NEMA) VE 1 standard is the primary guideline for specifying cable tray systems, particularly defining load capacity and span capabilities.
