

Composite optical cable finished product line

We offer complete fiber optic cable (FOC) manufacturing solutions, from fiber to finished cable, as well as individual solutions for the individual process steps of fiber optical cable production.

Find your composite optical cable easily amongst the 16 products from the leading brands (CORNING, LAPP, Cavicel, ...) on DirectIndustry, the industry specialist for your professional purchases.

As the world's largest producer of telecoms cables, supporting the infrastructures of many of the world's leading telecoms operators, Prysmian delivers optical fibre and copper cabling solutions that help link ...

Since 1986, Proterial Cable America has been developing technologically advanced copper and fiber optic communication cables. Our dedication to engineering perfection is evident in the consistent ...

By integrating linear laid copper and loose tube fiber in one cable, ActiFi cables eliminate the need to install separate power and fiber cables. This saves installation time, labor costs and duct or tray space.

In 2021, Vertical Cable continues expanding its operations by targeting optical fiber project solutions with its connectivity portfolio that now includes connectors, enclosures, panels, cassettes, splicing, ...

CommScopes high-performance cables ensure minimal signal loss and maximum bandwidth. Explore our extensive, versatile portfolio today.

We offer a broad portfolio of innovative, high-performance, copper and fiber cabling products that power and connect the future of communications to meet the demands of your ever-evolving premises, ...

Learn how to select the ideal fiber optic cable production line for your factory--covering capacity, budget, and cable type for maximum ROI.

Two or three stainless steel optical tubes are helically stranded in the inner layer of a multiple-layer cable. The multi loose tube type is designed mostly for very high fiber count requirement over 48 with ...

Simple installation: Put the main wire and the branch wire directly on the right place without wire stripping. Tighten the shear head evenly by wrench.
