

Consulting on DAC high-speed cables DML

Philisun team helps you select the most suitable AOC and DAC high speed cables for data centers, HPC, and AI deployments, delivering reliable performance, broad compatibility, and scalable ...

Our signal integrity (SI) and system architecture expertise allow us to provide one of the highest performing portfolios for QSFP-DD 112, QSFP28/56 and SFP28/56 cable assemblies in the market. ...

Learn how passive DACs, active DACs, and AOCs compare to optical modules for 10G-400G links. Using direct attach cables in ToR, leaf-spine & AI cluster designs.

Designed by the GIGALIGHT R& D team and manufactured by CablesTEC's Yancheng factory, each cable has undergone rigorous performance testing. COM parameters and S parameters are much ...

Empower your data center and network infrastructure with cutting-edge copper cable assemblies for unmatched performance and reliability.

Lumus Technologies Inc. meets this need with high-speed cables from 10GB to 1.6TB designed for low latency, top performance and energy efficiency to ensure your project runs smoothly.

Explore the possibilities with our expert solutions. Unlock 100G performance with BizLink's DAC cables. Our direct attach cable solutions, including QSFP28, ensure low loss & high-speed data for ...

Data center DAC cables are pre-terminated copper cables with integrated connectors that provide low-latency, low-power, and cost-effective short-reach connectivity inside data center racks and between ...

FibreCross provides fully customizable DAC (Direct Attach Cable) solutions tailored to your specific networking environment. Supporting speeds from 10G to 800G, our OEM/ODM DAC cables are ...

By partnering with Volex on data centre high-speed interconnect solutions, customers benefit from strong technical expertise and manufacturing prowess to help future-proof data centres and fulfil ...
