

Custom-designed spectrometers for the VIS / UV / VUV / XUV / EUV / X-ray range. Ions and proton spectrometers.

NLIR can customize our standard spectrometer to optimize performance in the wavelength range that suits your application the best. Generally, a narrower wavelength range gives higher response and ...

Explore more details about our spectrometer platforms. We also offer extensive integration and support services, along with an OEM project model for customers seeking custom spectrometer development.

Our supplier Mightex offers a wide range of custom spectrometer solutions, exactly tailored to your needs. So if you are unable to come up with a good solution using our "standard" spectrometer ...

Developer of optical emission spectrometers, carbon sulfur analyzers, and flaw detectors for global users in metallurgy and materials testing.

Spectrometers Unlock precise, real-time insights with compact Ocean Optics spectrometers covering UV-Vis, NIR, Raman and more. Find the perfect spectrometer device for your spectroscopy ...

LightMachinery is a manufacturer and supplier of custom spectrometers. If you need to discuss the various parameters and trade-offs please contact us here.

Discover the power of a customized miniaturized NIR spectrometer integrated for your analysis needs. Get detailed insights and accurate results with our advanced material analysis solutions, designed ...

HORIBA offers spectrometers, monochromators, and scientific cameras with customizable features for all your optical components needs.

BaySpec benchtop spectrometer system incorporates all SuperGamut(TM) series spectrometers (UV - NIR, VIS - NIR and NIR - SWIR), light sources, and sampling optics into one compact turn-key ...
