

CX6 series intelligent fiber optic sensors from Chanko Sensor. It has multiple functions such as automatic compensation for light collection and area detection, with a detection rate of...

CX6 Intelligent Optical Fiber Sensor (Rs485 Type) offers reliable object detection with a 1.5-degree viewing angle and 20ms response time. Perfect for automation. | Alibaba

Find many great new & used options and get the best deals for 1PCS NEW IN BOX CHANKO Fiber Optic Sensor CX6-DN10 at the best online prices at eBay!

Description: - The CX6 fiber optic series sensors have dual screen digital display function and built-in light correction and compensation function, resulting in strong product stability. Setting the threshold ...

Find out all of the information about the CHANKO SENSOR product: light optical sensor CX6-DN50. Contact a supplier or the parent company directly to get a quote or to find out a price or your closest ...

CX6-D CX6 Fiber Optic Sensor Item CX6, Action Mode Dark ON Light ON, Supply Voltage 12-30VDC, Detection Mode Diffuse Reflection Through Beam Reflection, Output Mode NPN/PNP/PVC Cable

Sensor360 provides professional information on the CX6 FIBER OPTIC AMPLIFICATION photoelectric sensors & switches for CHANKO, covering its features, applications, and specifications.

Used in conjunction with fiber optic cables, it can detect objects with a diameter of 0.5mm, with stable and reliable performance, good consistency, and high cost-effectiveness.

Buy RUNSIBA CX6 Series Upgraded Intelligent Optical Fiber Sensor CX6-DN10S Fiber Amplifier (Size : CX6-DP10S (PNP)): Photoelectric Sensors - Amazon FREE DELIVERY ...

Electrical characteristic Stable performance, good consistency, high cost performance sensor type optical fiber amplifier voltage DC12-24V
