

Direct Sales Manufacturer of Indoor Tight-Cloth Optical Cable

With global standards compliance and a wide choice of fiber counts, jacket options, and bend-insensitive SMF/MMF, we provide the right indoor optical cable for every rack, room, and riser.

Our high-end factory makes indoor fiber optic cables that experience less temperature and mechanical stress and are provided with fireproofed protection to avoid easily burning. With a small bend radius, ...

Fibertronics, Inc. is an SBA certified woman-owned small business providing USA manufactured customized fiber optic and low voltage cable assemblies, and products for distribution.

Leviton offers tight buffered fiber optic cables in multiple constructions suitable for either indoor or indoor/outdoor applications, and with fiber counts up to 144F. These cables feature a soft protective ...

Note: The information in this specification sheet is approximate and subject to standard industry and manufacturer tolerances. Please verify specific requirements with your Omni Cable account manager.

The tight-buffered construction facilitates easier termination for low-fiber-count applications in the local area network (LAN) and eliminates need for fan-out kits.

STL provides ultra high fiber count optic cable connectors & solutions to lower network cost, improve performance, and maximize flexibility for emerging data centres interconnect applications, faster ...

Our fiber interconnect cable is suitable for patch cords, short runs, and interconnects and will support applications including Gigabit, 10 Gigabit, and 40 Gigabit Ethernet.

As a trusted original manufacturer and supplier of Indoor Tight Buffer Fiber Cable, we offer bulk ordering at factory-direct prices with fast delivery and customization options.
