

# Do I need a switch when installing fiber optic internet at home

How to Get Fiber to My House  
 How to Get Fiber to My Neighborhood  
 How to Get Fiber to My City  
 If a fiber provider is already in your neighborhood, you might be in luck. Running a cable from your house to the curb is the smallest investment an ISP would have to make to connect you to its network and will usually be covered by the installation fee. If the network is still a few blocks away, some ISPs might be willing to run a cable to your home. See more on high-speed internet. Author: Peter Christiansen.

What Equipment Is Needed for Fiber Optic Internet?
