

Ecuadorian manufacturer of LPO optical modules SFP

Our technical expertise in R& D runs deep with manufacturing process development expertise and highly specialized engineering teams based around the globe -- ...

Designed for 800Gb/s data rate links, these OSFP optical modules support 106.25Gb/s per channel with low power consumption. Featuring LC or MPO ports, digital diagnostics, and a hot ...

At Amphenol, we recognize the pivotal role these components play in mission-critical systems. Our optical transceivers are designed to outperform in harsh environments and extreme temperatures, ...

The company specializes in the R& D, intelligent manufacturing and sales of passive components and active modules for optical communication. Meanwhile, it delivers customized ...

Our technical expertise in R& D runs deep with manufacturing process development expertise and highly specialized engineering teams based around the globe -- experts in optoelectronic devices, optical ...

Discover how QSFPTEK helped PacketStream engineer a reliable 200G DWDM network over 36km using 25G optics, overcoming 100G module scarcity. In this case, QSFPTEK engineers created a 10 ...

Our LPO transceivers support 400G and 800G applications in QSFP and OSFP form factors. They bring all the efficiency and performance benefits of LPO to data center operators, while integrating ...

We deliver high-performance 100G, 400G and 800G optical transceivers optimized for data centers, metro transport and long-haul links. Our modules meet the latest standards and integrate seamlessly ...

The LPO MSA develops electrical and optical interoperability specifications for a diversity of high-density networking equipment and pluggable optical modules based on LPO technology

With dual strengths in optical-module and optical-chip R& D and mass production, LIGENT stands among the few companies worldwide capable of scaling both.

Our optical modules feature traditional DPO, low-power LRO, LPO, and Active Loopback designs for testing, and support data rates from 10G up to 1.6T across a wide range of package types.
