

Mount to an Optical Table with the FCQB Mounting Base (Available Below) Thorlabs" Single Mode 1x16 Fiber Optic Planar Lightwave Circuit (PLC) Splitters allow a user to split a single input signal evenly ...

Ideal for passive optical networks, this splitter simplifies network architecture, reduces costs, and supports multiple split ratios such as 1:4, 1:8, 1:32, and 1:64, making it essential for streamlining ...

These splitters are encased in a metal box, offering easy installation in fiber optic applications and extensively used in Fiber To The Home (FTTH) networks, adhering to PON standards like GPON ...

The 1&#215;16 optical splitter in cassette format with Steel Tube encapsulation from GTLAN is designed for efficient signal distribution in FTTH, GPON, EPON and CATV networks. Its compact, robust and ...

CommScope offers a portfolio of bare and connectorized splitters/couplers in a wide range of styles and split ratios, and splitter modules for inside plant (ISP) and outside plant (OSP) applications that help ...

This PLC Splitter is a 1x16, with 1 input and 16 output fibers with an even split ratio across all fibers regardless of input wavelength. PLC Splitters are available with 900&#181;m loose tube singlemode fiber ...

Fiber-Mart 1x16 Fiber PLC Splitter can distribute or combine 1 optical signal into 16 outputs fibers.

The GFT4016 is a passive Optical Splitter designed for use in optical network. The device allows splitting one channel to 16 channels (4, 8 or 12 channels in option) with very low jitter.

They combine the small packaging of bare splitters with the advantages of preconnectorization in FTTH networks. All splitter minimodules are delivered with Corning"s low bend loss LBL&#174; optical fiber ...

1x16 PLC Splitter for FTTH, FTTX, and GPON applications. Low insertion loss, compact design, and excellent signal stability. Ideal for MDU fiber networks.

QuestTel PLC splitters are used to distribute or combine optical signals. PLC splitter are based on planar lightwave circuit technology and provides a low cost light ...

Optosun PM (Polarization maintaining) splitters ensure that the polarization of linear polarized light waves in the fiber are maintained during propagation, to enable minimal cross-coupling of optical ...
