

We offer a wide range of street cabinets, as well as indoor and outdoor distribution boxes. What do you need? By checking the box, you consent to the collection and storage of the data you provide for the ...

The European-Style Cable Branch Box is a specialized solution for 10kV cable-based power distribution systems, offering fully insulated, sealed, and shielded construction for enhanced safety and reliability.

Designed and manufactured in Italy, the Euro2000 range of Distribution Boxes offer quality and reliability across the entire range. Suited for a wide variety of applications in the electrical engineering industry.

European cable distribution boxes are designed for efficient power management, ensuring that electrical power is evenly distributed across multiple ...

We provide you with information on our distribution boxes for download. Download our product catalogue for sensor-actuator cabling and circular connectors or our portfolio overview for ...

European cable distribution boxes are designed for efficient power management, ensuring that electrical power is evenly distributed across multiple circuits. This helps prevent ...

European type cable distribution boxes do not have switches, and they are also known as ordinary cable distribution boxes. This equipment is widely used in power distribution network systems around the ...

The European-style cable branch box is a modern and efficient solution for urban cable distribution networks, widely used in power grid cable engineering.

From decentralized energy, signal and data distribution to distribution boxes for smart buildings, we offer the right solution.

Our Cable Distribution Box is pre-engineered for easy installation and operation. It includes fault interrupters, vacuum switches, and fuse options inside a compact, insulated cabinet suitable for utility ...
