

Jilong KL-300T Fusion Splicer is an automatic fusion splicer with core fiber alignment. The device is capable of splicing a fiber in 9 seconds and heating a splice sleeve in 30 seconds. Jilong KL-300T is ...

3-in-1 universal fiber holder. Suitable for jump fiber, pigtail fiber, bare fiber, flat cable.

The JILONG KL-300T digital fusion splicer focus function automatically, Applicable fibers SM, MM, DS and NZDS, 9s splicing and 30s heating will be a good assistant for your work when fusion splicing.

JiLong KL-300T Fusion Splicer Fusion splicer kit (with KL-21B fiber cleaver, CFS-2 fiber stripper, inner rechargeable Li battery, AC adaptor, P.S cord, carrying case, spare electrodes, cooling tray, cleaning ...

Fiber type identification function, 6 motors core alignment. V-groove precise alignment, high quality and low loss. Auto-splicing mode, using friendly design.

Fiber type identification function, 6 motors core alignment. V-groove precise ...

Quality fiber optic Fusion Splicer manufacturers & exporter - buy fiber optic fusion splicer ETC-KL-300T from China manufacturer.

Description: The KL-300T Core Alignment fiber optic fusion splicer made by Jilong Communication is a solid reliable addition to any Technician's tooling. In side by side specification comparisons the KL ...

The JILONG Fiber Optic Fusion Splicer KL-300T is engineered for fast, efficient, and accurate splicing of both single-mode and multimode fiber optic cables. Featuring advanced core alignment technology, ...

Product description KL-300T fiber fusion machine is widely used in the backbone networks, power base stations, security monitoring, communication engineering, and other fiber and ...

Our goal is to make our customers' fiber connectivity more reliable. Over the past 17 years, we've gathered a team of seasoned fiber optic professionals. Their expertise spans connector polishing and ...
