

LC Fixed Fiber Optic Attenuator (Singlemode, Male to Female, APC, 1~25dB) Fiber optic attenuators are devices to reduce the optical fiber power by a certain level within the fiber optic network. Fiber ...

FS fixed and variable fiber optic attenuators with leading attenuating fibers guarantee consistent and stable fiber attenuation (0~60dB) in WDM transmission.

Our single-mode and multi-mode fixed fiber optic attenuators as well as our variable fiber optic attenuators are passive components that reduces the amplitude of a light signal without significantly ...

These versatile in-line attenuators are the perfect solution for attenuating ...

LC fiber attenuators are used to reduce the power level of an optical signal of a fiber optic cable by up to 30dB. A fiber attenuator is commonly used in fiber-optic communications to the power level of a fiber ...

These versatile in-line attenuators are the perfect solution for attenuating Singlemode fiber connectors for both lab and commercial applications. Constructed of the highest quality materials and factory ...

When a cable end in inserted into the female end, the remaining male end can be connected to the equipment where the cable would otherwise connect directly, but providing the desired signal ...

Shop DigiKey's large in-stock selection of Fiber Optic Attenuators. View inventory, pricing and order now for same day shipping!

LC-LC UPC Male/Female fixed attenuator for singlemode applications to prevent ...

LC-LC UPC Male/Female fixed attenuator for singlemode applications to prevent over saturating an optical receiver when the optical power is too high. Using an attenuator ensures low bit error rates ...

LC Attenuators are essential devices in fiber optic networks, designed to precisely control optical signal power. Compatible with LC connectors, known for their compact and push-pull design, these ...

Our male-to-female buildout optical attenuation (Pads) are available across all fiber modes, featuring LC, LC/APC, SC, SC/APC, FC, FC/APC, and ST connector types. Our in-line attenuator is customized to ...
