

French Low Voltage Busbar Systems Company

TM Electro designs and manufactures non-segregated, medium and low voltage busbar trunking for primary and secondary distribution

Whether it's for an industrial and military equipment, a renewable energy or for transportation, our insulated and laminated busbars integrate intelligently into your various projects with a multitude of ...

RiLine busbar systems for individual switchgear and controlgear. Complete solutions up to 1600 A for AC or DC applications. 3-pole, tool-free mounting, short circuit-resistant up to 65 kA, fully contact ...

Industry leaders in the France Low Voltage Busbar Trunking Systems Market are shaping the competitive landscape through focused strategies and well-defined priorities.

Due to its modular structure, the busbar trunking system can be dismantled, transported, and re-assembled in another area for reuse. The busbar disperses the heat generated during electricity ...

Locate Busbars and Busways suppliers, manufacturers & distributors in France. Interactive map of France provided.

Welcome to the future of busbar manufacturing - where precision meets innovation! As one of Europe's largest busbar processors, we offer our customers first-class solutions made of copper, aluminum, ...

Our bus bar insulation system offers an alternative to cables routed in parallel and enclosed metal bus bar trunking, especially for the transmission of high currents and power, and situations where space ...

Especially for harsh and industrial environments, we engineer and manufacture Busbar Systems from 1,200 to 300,000 amperes (A) according to your specifications and requirements.
