leading source of electronic in Guyana

The Government of Guyana has earmarked \$88 billion for its energy sector in 2025, aiming to address longstanding issues of electricity reliability, affordability, and access.

As signalled in the budget narrative around the measure, the policy intent is to move additional workers out of the tax net and increase disposable income for households.

In light of current increases in freight prices associated with the Panama and Suez Canals, the Government will extend this measure for a further 12 month period from 1 January 2024 to 31 ...
