

A fiber splitter, also known as an optical splitter or optical power splitter, is a passive optical device that operates without any external power supply. Its primary function is to divide one ...

Explore our comprehensive selection of high-performance fiber optic splitters. We offer a variety of PLC splitter types, including ABS box, LGX cassette, and rack-mount options with multiple ...

Spring Optical provides fiber optic splitters including PLC splitters and FBT couplers for FTTH and PON networks, offering low loss and stable performance.

Sinocomms" PLC splitters are designed with precise alignment of optical fibers to provide equal optical power from input ports to multiple output ports. They split optical power evenly over the entire single ...

CommScope's Optical Splitter Modules are part of our value-added module (VAM) system that provides flexibility, scalability and functionality to an optical transport system.

A fiber optic splitter is a passive component that divides an optical signal into two or more outputs or combines multiple signals into one. It functions much like a signal distributor in an optical system and ...

By dividing a single optical signal from a central Optical Line Terminal (OLT) into multiple outputs for Optical Network Terminals (ONTs) at users' homes, splitters eliminate the need for ...

FS PLC Fiber Optic Splitters, Bare/Blockless/ABS/LGX Splitter/Rack Mount Types, support 1xN light distribution, with low IL and PDL for high-reliability transmission. ...

Our Fiber Optic Splitters provide efficient, low-loss signal distribution, making them ideal for FTTH (Fiber to the Home), PON (Passive Optical Networks), data centers, and telecom applications.

With two input ports and sixteen output ports, this splitter is designed to efficiently expand network coverage while maintaining stable optical performance. It is widely deployed in FTTH ...

Learn how to choose the right fiber optic splitter for FTTH and FTTX deployments. Compare PLC splitter ratios, packaging types, and installation options.
