

High-density rack DC power distribution unit smart stock available

Smart Rack Power Distribution Units assist data center IT managers in meeting their rapidly increasing power demands. Sipolar supplies smart PDUs. With tailored sizes and configurations, these ...

Metered-by-outlet Rack Power Distribution Units (Rack PDU) provide real-time remote monitoring at the outlet level to provide advanced data center energy management.

A single solution equipped to meet the most diverse data center rack power needs. With its universal input, dynamic C39 outlets and global approval, the UPDU accommodates single- and 3 ...

These in-row PDUs efficiently and reliably deliver power to high-density, megawatt-class IT racks as a power sidecar in both one-to-one and one-to-many configurations for flexible, scalable ...

Introducing the industry's most innovative energy metering rack power distribution units (PDUs) designed to simplify rack management in your data centre.

Custom load-specific distribution blueprints designed for maximum power density and thermal stability across your whitespace. Built in our state-of-the-art US facility using premium components from ...

The Ubiquiti USP-PDU-HD Hi-Density Power Distribution Unit delivers intelligent rack power management, redundancy, and monitoring with UniFi SmartPower integration.

Reliable rack-level power distribution designed for data centers, network closets, and high-density IT environments requiring flexible deployment and broad UPS compatibility.

The PowerDirect Rack provides a high-density, scalable DC power solution designed for modern data centers and Open Compute ORV3 environments. This modular system offers up to 132 kW per rack ...

Discover the best rack-mounted smart PDUs for 2026. Our expert review covers 10 top-rated power distribution units with remote management, monitoring, and enterprise-grade features for ...
