

SIMABUS is an Extra high voltage range of clamps and connectors for AC & DC applications up to 500kV (phase-to-phase voltage).

Discover our selection of Bus-Bar products. Our product experts are here to assist you. Get in touch with our team now.

Kaerda utilizes specialized formulations of BMC and SMC, designed to deliver exceptional mechanical strength to securely hold busbars, especially under electromechanical stress from short-circuit ...

Busbar Clamp to connect nVent ERIFLEX Flexibar to copper punched busbar without drilling.

Use our intuitive filtering tools to quickly find the right bus bar connector by current rating, material, and mounting style. If you need assistance, please contact our technical experts.

The HC-STAK Busbar Connector System eliminates the need for bolt-driven electrical connections, providing a scalable and separable interface in one of the smallest high-voltage package designs ...

These board-to-busbar connectors are designed to meet OCP V3 power distribution architecture standards and are ideal for use in power shelves, BBUs, server/storage sleds, EV ...

Molex's Sentrality Pin and Socket Interconnect System offers high-voltage, high-current board-to-board, busbar-to-board and busbar-to-busbar connectors and provides a +/- 1.00mm radial self-alignment to ...

HellermannTyton provides high voltage cable retention, busbar protection, and EMI shielding systems for electric vehicles and other demanding automotive applications.

Molex provides a versatile range of high-current high-voltage busbar solutions suitable for various applications and environments. Busbars and busbar connectors are the backbone of many ...
