

Featuring a carrier-grade SC port and embedded PEI material, this cold splicer enables fast, reliable, and tool-free fiber optic connections without the need for heat or fusion splicing.

The preset v-groove design locks the fiber securely with up to 20N pull tension. Perfect for FTTH drops, CATV repairs, LAN extensions, or any field termination where speed matters.

Item Type: Fiber Optic Cold Connector. [Stable and Lasting] These fiber optic fast connectors are made from PTB material, ensuring stable performance and durability. 20 x Fiber ...

The wide application of fiber-to-the-home (FTTH) has promoted the rise of fiber optic fast connectors/cold connectors. This product has the characteristics of small size, fast termination, low ...

?Quick and convenient installation?The cold connector can be used for quick fiber cold connection at room temperature, and the package comes with detailed English installation diagram, which much ...

At the end of the cable, two technologies can be used: welding and cold bonding. The so-called cold connection is opposite to the fusion, which means that the cable is mechanically connected by the ...

Widely applied in FTTH, FTTx, LAN, and telecom networks, this cold fast splicer connector is perfect for emergency repairs, field terminations, and both temporary and permanent fiber links.

Use and characteristics: The optical fiber cold sub uses two pigtail when docking, its main parts inside is a precision V groove butt joint, use cold son to achieve two pigtail pigtail fiber aftertwo dial.

This 20-pack of SC fiber optic cold connectors will make your life a whole lot easier. These are "fast" or "cold" connectors, which means you can terminate fiber optic cables on-site in just about 10 seconds ...

Widely used in FTTH, FTTx, LAN, and telecom networks, the cold fast splicer connector is ideal for emergency repairs, field termination, and temporary or permanent fiber links.
