

I-Beam Cable Drop-Outs (CDO) are designed to provide a smooth transition for cable, particularly those with a small diameter, where these enter and leave the cable ladder.

Beam clamps allow J-Hooks and bridle rings to be mounted to I-Beams and other structural members. Mount J-hooks or bridle rings to I-beams with Cope beam clamps.

The B-Line series cable ladder features a highly engineered I-beam rail, which maximizes the strength to weight ratio of the cable ladder system, and allows for longer span capability.

The I-Beam cable tray design is another side rail style offered besides C-Channel side rail styles for customers that prefer this style. One advantage of I-Beam ladder cable trays is that hold down clips ...

Choose from our selection of festoon I-beam trolleys, including beam-travel hoist cable trolleys, channel-travel hoist cable trolleys, and more. Same and Next Day Delivery.

These special heavy duty tray hold down cable tray clamps and expansion guides are ideal for fastening tray to C-Channels and beams, such as those found on bridges. They are easy to install and reduce ...

Buy Quest Cable Tray I-Beam Mounting Clip, Zinc at Firefold. This Quest offers a full line of cable tray accessories and is ideal for mounting cable tray.

Quest offers a full line of cable tray accessories. This accessory is ideal for mounting cable tray from structural I-beams.

They are primarily used to securely hang and support cable trays from overhead I-beams. This allows for the organized routing and protection of electrical or data cables throughout a building or industrial ...

Robroy Stainless Beam Clamps are used for hanging conduit, cable tray, or cables from a wall or ceiling. Beam clamps provide a means of attachment to a structural member without having to drill holes. ...
