

Industrial Ethernet Swiss Tunable Optical Module High Precision

They enable plug-and-play configuration of 10-Gbps Ethernet signals for simple configuration of R-PHY devices or shelves. There are 2 types of 10GBASE DWDM SFP+ modules, one tunable module and ...

Digital diagnostics functions are available via a 2-wire serial interface, as specified ...

Power your network with Innoptical's high-performance optical transceivers. From low data rates to 800GB, we have compatible, energy-efficient modules tested with global standards. Get the quality ...

NEC's Tunable SFP is an optical transceiver that allows wavelength change and contributes to the WDM of the network. It reduces the complexity of wavelength management and inventory management, ...

The Lumentum tunable SFP28 module is an industrial temperature, high performance tunable pluggable transceiver for use in the C-band window covering 1528 nm to 1566 nm that is SmartTunable MSA ...

Deploy high-density transceiver modules for data center AI/ML applications and high-performance computing networks.

FTLX6873MTC Tunable SFP+ transceivers support the 2-wire serial communication protocol as defined in the SFP MSA1. It is very closely related to the memory map defined in the GBIC standard, with the ...

Get the pluggable module performance you need from the manufacturer of choice for all major networking equipment vendors worldwide.

Automated production: Automated production process in our US facility, using the first high-speed robots in the Western Hemisphere for coding and testing transceivers

Power your network with Innoptical's high-performance optical ...

The Optical Ethernet PHY Transceivers are now available for purchase in production quantities. You can purchase directly from Microchip or contact a Microchip sales representative or ...

The transceiver provides 25GBASE Ethernet connectivity option for 25G Ethernet, telecom and data center, which significantly improve the flexibility, economy and reliability of networking.

Step into the future of passive optical networking with Precision OT. Meet OpenPath, the groundbreaking, end-to-end PON access solution crafted by our team of experts.
