

Find the perfect connection for every industrial application - from the automotive and chemical industries to the manufacturing and process industries. These solutions are designed for use at all network ...

Introducing a complete wireless connector solution using ADI's 60 GHz wireless data link technology. Learn about our design collaboration with Phoenix Contact, a leader in the world of industrial solutions.

Industrial Wireless enables secure and reliable wireless connections for industrial applications. Depending on requirements, use IWLAN or Bluetooth for real-time communication, NearFi for close ...

Thanks to SPE technology, the switch enables ETHERNET communication at 10 Mbps over impressive transmission distances of up to 1,000 meters - using shielded, twisted-pair two-wire cables.

With over 25 years of expertise, Maisvch offers a comprehensive range of industrial communication products designed to support IIoT and Industry 4.0 environments. Our solutions include industrial ...

Gain access to all your facility data with industrial wireless infrastructure for process instrumentation and wireless networks from Emerson(TM), the expert in industrial wireless technology.

Advantech provides complete industrial communication products from industrial switches, fiber and PoE media converters, to industrial gateways, 5G, LTE and LAN cellular routers.

Industrial communications have the Ethernet switches, routers, protocol converters, and wireless communication devices that internally process system information.

GE Vernova provides industrially hardened communications networks for leading industrial and energy companies.

Products have either a built-in network interface or an optional communication module. We continue to expand our EtherNet/IP(TM) offerings with new and innovative products.
