

In an era where seamless connectivity is paramount, DCN is proud to unveil its cutting-edge All Optical Ethernet Solution, designed to redefine network capabilities and performance.

Explore Dasscom's industrial network and Ethernet switches, delivering reliable, secure, and scalable connectivity for critical industrial environments.

Industrial switches are specialized network switches designed to operate in harsh industrial environments. They are resistant to extreme temperatures, humidity, vibration and electromagnetic ...

An industrial Ethernet switch is a type of network switch designed to operate in harsh industrial environments. Oil rigs, railways, manufacturing plants, and similar applications require industrial ...

Industrial network switches are essential components for maintaining robust and efficient communication within industrial environments. Designed to withstand harsh conditions, these switches ensure ...

The Intrising DCN series only comes with 6 ports. It has a built-in 1-to-1 NAT mechanism. Four of the ports can be designated as a LAN port and there are two ports to be designated as a WAN port. ...

PLANET Technology offers a range of Industrial Power over Ethernet solutions, including managed and unmanaged switches, injectors, splitters, extenders, and media converters.

Manufacturer of Ethernet Switch. CTC Industrial Ethernet switches offer a total of 5~20 fiber/UTP ports and feature industrial-grade reliability and network redundancy. The switches offer advanced ...

It offers 40G switch and 100G switch solution to provide flexible choice for customer. With hardware stacking and VxLAN supported, it is ideal choice for datacenter switch.
