

The ONU, functioning as the Powered Device (PD), receives both power and data through the Ethernet cable. This approach eliminates the need for a separate power source for each ONU, making ...

Shop reliable ONU units for GPON and EPON networks from Ubiquiti Networks. Perfect for efficient fibre optic network connectivity and high-speed data transfer. Explore our range of high-performance ONU ...

Acting as the bridge to the last mile, they combine high bandwidth, stability, and cost efficiency to support diverse applications. In this article, we'll explore what an ONU is, its key ...

A wide range of high-performance, cost-effective, RF over glass (RFoG) solutions from Technetix. Don't miss out on our tech updates. ©2026 Technetix. All Rights Reserved.

XPON ONU: 1xXPON (SC/UPC), 1xGE (RJ-45), mini The XPON ONU/ONT (Optical Network Unit) subscriber device supports 1 XPON port (SC/UPC) and 1 10/100/1000Base-T (RJ45) port in a mini ...

Taikan's GPON ONU is a high performance, economical terminal device that has four 10/100M Ethernet Ports, one CATV port and one PON port to transmit voice, data and video services for full triple play ...

Introducing our state-of-the-art business solution, the Single Gigabit Port Xpon ONU. Designed to cater to the evolving needs of modern enterprises, our ONU (Optical Network Unit) combines the power of ...

This unit can be easily connected to any existing Optical Line Terminal (OLT) and operates over a single fiber using standard wavelengths, typically 1490 nm for downstream and 1310 nm for upstream ...

Compact GPON customer-premises equipment (CPE) with a 1G SFP interface.

Discover our selection of GPON, EPON, and XG (S)PON ONT/ONU devices. Choose from reliable Optical Network Terminals for seamless connectivity and ...
