

Online attenuators, adjustable attenuators, yin and yang attenuators, and other passive optical devices can be provided to achieve optical signal attenuation.

The Yin-Yang Type Fiber Optic Fixed Attenuator is a type of connector that has one end as an adapter and the other end as a connector. The attenuation value is adjustable.

Optical fiber attenuator 3DB/5DB/7DB/10DB/15DB male and female fixed optical Adapter FC/APC yin and yang

Jumping attenuator used in radar anti-interference: It is a variable attenuator with a sudden change in attenuation. It does not introduce attenuation normally, but suddenly increases attenuation when ...

Sc/Acp Yin-Yang Fiber Attenuator Single-Mode Optical Attenuation Adapter 0-30Db Male/Female Fixed Butt Attenuator

Based on the shape of ferrule shape, the fixed optical attenuator can also be classified as PC and APC with 8 degrees type. The attenuation value is in range of 0 to 30dB, which are all applicable for ...

The new 2025 sc type attenuator offers a wide range of 1db to 25db options, making it suitable for various applications including optical communication and fiber optic networksFeatures a male-female ...

MU Yin-Yang Fixed Optical Attenuator 10pcs SM Fiber Attenuator Fixed value fiber optic attenuators can reduce the optical light power at a fixed level, for example, a 5dB SC fiber optic attenuator can ...

LC UPC Fiber Optical Attenuator(LC\_UPC Yin Yang 1dB) Fiber Optic Attenuator is one kind of optical passive device which is used to debug the performance of the optical power in the optical ...

The Yin-Yang Type Fiber Optic Fixed Attenuator is a type of connector that has one end as an adapter and the other end as a connector. The attenuation value is ...
