

Microcomputer Relay Protection Tester GSWJ

Microcomputer Three-Phase Analog and digital device for relay protection testing with high accuracy, supports various phase current and voltage channels.

The microcomputer relay protection tester can manually or automatically test various types of voltage, current, frequency, power, impedance, harmonics, differential, synchronous relays, etc.

Microcomputer relay protection tester is composed of high-integration, bus-out chip single-chip microcomputer, high-precision current and voltage transformers, high-insulation-strength ...

Powerful testing function: The microcomputer relay protection tester supports multiple testing modes and parameter settings, can simulate various complex fault scenarios, and meet different types of testing ...

Abstract: According to the requirements and characteristics of performance test in the process of research and development of relay protection device, a general automatic test system for relay ...

TEST-630 protection relay tester is a relay test equipment which offers all the characteristics and functions needed for protective relay testing, in a manual or automatic mode, designed for using on ...

For testing high-voltage microcomputer protection devices, it is recommended to use a microcomputer relay protection tester capable of simultaneously outputting three-phase voltage and three-phase ...

This model relay test equipment can independently finish device test in professional fields of microcomputer protection, relay protection, excitation, metering, fault recording, etc.

Relay protection testing device is an important testing tool for ensuring power system running safely and reliably. HDJB series relay protection tester is a new style microcomputer relay ...

Equipped with advanced DSP technology, a high-fidelity linear amplifier, and multiple digital interfaces, it ensures reliable, efficient, and automated protection system calibration. Compact and portable, it's ...

Microcomputer Three-Phase Analog and digital device for relay ...
