

Multimode beam splitter Ic

A fiber optic splitter functions by dividing the fiber optic light into multiple segments based on a specific ratio. For instance, when light is transmitted through a 1X4 equal ratio splitter, it splits into four equal ...

Lfiber's large core fiber coupler (multimode fiber optic splitter) is mode-insensitive and wavelength-insensitive over a broad wavelength range. Also, it can be designed to have an optimum ...

Thorlabs offers a varied selection of single mode (SM), polarization-maintaining (PM), multimode (MM), and double-clad fiber couplers, as well as 1x8 and 1x16 SM PLC splitters; 1x4, 1x8, and 1x16 PM ...

OZ Optics has the capability to connectorize the fibers of fused splitters with all standard connectors such as FC, SC, ST, LC etc. and finishes (Super PC, Ultra PC, Angled PC etc.).

The multimode couplers are available in 50/125um and 62.5/125um fiber types and operate at 850nm or 1310nm wavelength range. Multimode Couplers are available with 3mm cable jacket, 900µm loose ...

Mouser offers inventory, pricing, & datasheets for Multimode LC Connectors Fiber Optic Connectors.

Our Multimode Fiber Optic Couplers come standard with 62.5/125 µm fiber, with low insertion loss and a broad operating wavelength range from 800 to 1600 nm. The 1x2 and 2x2 couplers are offered in ...

Fiber optic splitters include PLC type fiber optic splitters and FBT type fiber optic splitters. Available in single mode and multimode with 900µm loose tube fiber or 250µm bare fiber connectorless or any ...

Castor's Multimode Fiber Splitters (MFS) are designed to efficiently split or combine multimode signals with minimal insertion loss. Manufactured with step-index fibers with core diameter ranging from 50 ...

Cables Plus USA can supply custom fiber optic splitters to meet your specific requirements. Available in PLC splitters, also called Planar Lightwave Circuit. PLC splitters are based on planar lightwave ...
