

The 10G SFP+ 850nm optical transceiver is a hot-pluggable high-speed module designed for 10 Gigabit Ethernet transmission over multimode fiber. It is ideal for data centers, enterprise networks, and short ...

The SFP 10G 80KM LC module complies with industry standards and is hot-swappable, allowing for convenient installation and replacement without interrupting network operations.

The module supports data rates of 10Gbps, 5Gbps, 2.5Gbps, and 1000Mbps, and can reach a distance of up to 30 meters via 10Gbps and 100 meters via 1000Mbps. However, some customers have ...

All modules satisfy class I laser safety requirements. The transceivers are compatible with SFP Multi-Source Agreement and SFF-8472 digital diagnostics functions.

The 10G SFP+ series optical transceiver support 8.5~11.3Gb/s transmission rate, 220m to 120km a variety of transmission distance, the series of optical tra...
