

Easy-to-use, handheld MPO Power Meters for efficiently testing single-mode and multimode fiber optic cables and ribbon fibers with MPO connectors.

Scalable optical measurement for high-volume photonic testing Keysight optical power meters measure optical signal strength, providing multi-channel measurement processing and system control while ...

Optical power meters for any network. A range of handheld meters with choice of styles. Best accuracy, flexibility and easy to use.

A family of handheld Optical Power Meters for use by professional installers and contractors, to test power, loss, continuity and faults on all types of fiber optic systems.

Keysight optical power meter heads serve as the sensing front-end that converts optical signals into electrical output for measurement. Designed for accuracy and durability, each head is calibrated for ...

Optical Fiber Power Meter, with 2mW Visual Fault Locator, FC/SC/ST Interface, Portable OPM-VFL Fiber Optic Cable Tester, Supporting RJ45 Testing, Non-Rechargeable Needing Battery

Find out what's included and explore available upgrade options from Keysight.

Keysight optical power meters and modules provide high performance functionality. These modules include multiport optical power meters, optical power sensor modules, optical heads and return loss ...

OWL ZOOM 2 VFL - Visual Fault Locator and Optical Power Meter is a high resolution, high accuracy microprocessor controlled optical power meter that measures 850, 1300, 1310, and 1550nm. The Owl ...

Optical multiport power meter with 2 or 4 channels, analog outputs for linear or logarithmic feedback, and option to extend the wavelength range down to 800 nm. Offers fast power range switching and ...
