

FHO5000 series Optical Time Domain Reflectometer (OTDR) is an intelligent meter for the detection of fiber communications systems. The new generation FHO5000 series has higher test performance ...

Connect the OTDR EVO family anywhere on the fiber to characterize single-mode fiber for commissioning, network upgrades, and troubleshooting with the insurance of workflow optimization ...

Most importantly, the MaxTester 700D Series comes with the intelligent Optical Link Mapper (iOLM), an intelligent OTDR-based application. This advanced software turns even the most complex trace ...

The FHO5000 All-in-One OTDR & Fiber Test Analyzer is a versatile, high-performance optical fiber tester designed for deployment, turn-up and maintenance of PON, access, metro and long-haul ...

Optix America's WRX5000 OTDR SM+MM offers intelligent testing with a 7" touch screen, 0.5m event dead zone & support for SM, MM & SM+MM tests

Most importantly, the MaxTester 700D Series comes with the ...

The Viavi Quad OTDR module features fast acquisition time, sharp resolution, up to a 26 dB multimode dynamic range, and up to a 37 dB single-mode dynamic range for installing and ...

The T-BERD 2000 is a compact, rugged, and highly versatile fiber test platform built for technicians working in the field. Its modular architecture allows users to configure the unit with exactly the ...

VIAVI provides the widest range of OTDR testing tools delivering everything from basic fiber certification to fully automated bidirectional OTDR testing that scales for multi-fiber cable certification.
