

# Procurement of 1200mm deep corrugated sheathing for optical cables

Cable is supplied in wooden reels, corrugated boxes and coils. Cable ends are sealed with BOPP self-adhesive tape and non-hygroscopic sealing caps to protect the cable ends from moisture.

Corrugation Aluminum sheath shall be applied over the semi-conducting water blocking tape to accommodate the required radical water tightness and protect the insulation core.

In 2023, Qifan Cable plans to invest 2 billion yuan to build a submarine cable production base in Fangcheng Port. The company has set up two direct sales centers in Xi'an, Shaanxi, and Sanming, ...

Based on proven stranded loose tube cable designs, these industrial cables are flame-retardant and have been tested to meet mechanical/environmental conditions exceeding the ...

Prysmian has a built-in multi-step quality assurance program, covering the production process from cable design and raw material purchases to final inspection and testing documentation.
