

Professional-grade all-optical network switches

Our Ethernet network switches with fiber ports comes in managed or unmanaged formats combined with both Industrial and Commercial grades. Utilize our PoE switches to power your Ethernet devices ...

Professional-grade, Layer 3 Etherlighting switch with (2) 10 GbE, (22) 2.5 GbE, and (4) 10G SFP+ ports.

Extreme Networks offers a complete set of high-performance, reliable, and cost-effective optical transceivers and cables to help enterprises and service providers meet the challenges of diverse ...

Delivers max power and speed for advanced UniFi devices--all through one cable. Keep your UniFi switches online during power failures with seamless backup and automatic failover. 6U-sized device ...

Ethernet switches come in all types with options ranging from management style, port counts, PoE capabilities, and port-speed. Check out our various categories of switches below that are sure to ...

The MatrixPro Optical Switch leverages MEMS technology to provide precise and efficient optical signal routing. Since it is a physical layer (all-optical) switch, it is inherently protocol and bit-rate-agnostic, ...

The Series 6000 is based on Polatis' patented DirectLight™; optical switching technology that has been proven in the most challenging data center, telecom and defense applications and is also used by ...

1-16 of over 1,000 results for "fiber optic network switch"; Results Check each product page for other buying options.

Faster replacement and priority support, covered for 5 years. 1U, professional-grade 10-port, Layer 3 Etherlighting(TM) PoE+++ switch with (10) 10 GbE and (2) 10G SFP+ ports.

Discover what an all-optical Ethernet switch is, how it works, and the key benefits it brings to modern networks, from higher bandwidth to lower latency.
