

The server room is the heart of any data center facility. ABB's server room solutions provide an efficient and flexible infrastructure for your facility ensuring optimal protection and advanced energy distribution.

Discover Smart Micro Modular Data Center Solutions with One Row One DC, delivering integrated power and cooling, flexible scalability, and reliable performance.

The Eaton Micro Data Center represents a cutting-edge solution for eco-friendly data center infrastructure. It combines various subsystems such as UPS, power distribution, cooling, monitoring, ...

By using pre-defined container modules, Rittal makes it possible to create highly flexible data centre solutions that can be scaled up as and when necessary. They are ideal for outdoor siting if, for ...

Gcabling Micro Data Center is an all-in-one IT solution that integrates cabinets, power supply and distribution equipment, cooling systems, security systems, monitoring systems, and ...

From a single standalone rack enclosure to a multi-bay installation in a small computer room, Rittal meets the demands of mission critical deployments for Edge applications.

The cabinet integrates an intelligent monitoring system to ensure the safe and reliable operation of the computer room. Modular design of power distribution, easy installation and maintenance.

Eaton xModular Micro DC is an edge engineered compact data centre, integrating advanced power management, right sized cooling, airflow management, security, fire detection & suppression, wiring ...

The modular architecture can be easily assembled on-site to complete business delivery, which can save 50% of the delivery time and personnel investment compared to the traditional construction ...

Delta is proud to introduce its modular rack cabinet designed for maximum performance, convenience, flexibility and safety in high density IT room environments.
