

Sri Lanka Distributor DFB Distributed Feedback Laser 800G

Our Distributed Feedback (DFB) Lasers provide single-frequency output with unparalleled wavelength stability, ideal for gas sensing/molecular spectroscopy, LIDAR, and telecom.

Distributed Feedback Lasers (DFB) from Innolume ensure high wavelength stability and narrow linewidth. Covering 780-1350 nm, they feature a proprietary chip design.

Our DFB Laser sets the benchmark for high side-mode suppression, essential for applications demanding unparalleled precision. Explore our extensive product range and discover why Inphenix is ...

This distributed feedback lasers buying guide provides technical background, comparison of major types, selection criteria, and an overview of suppliers.

A DFB laser's periodic structure acts as a distributed reflector, providing optical feedback and wavelength selection for the diode. This allows these butterfly-packaged DFB lasers to achieve ...

These devices have been optimized for telecommunication, test & measurements as well as photonic sensing applications (gas). We are ready to lead you into the future of light no matter where your ...

Offers high-quality DFB lasers (1018-1188 nm) for diverse applications. Our lasers support a wide range of operations from picosecond (15, 20 or 50 ps) to nanosecond pulses and CW, ideal for material ...

The narrow linewidth, high side mode suppression ratio (SMSR), and low relative intensity noise (RIN) of our DFB platform can achieve high quality optical communications. The customizable multi-channel ...

DFB lasers suitable for near infrared molecular absorption. Available wavelength range between 1260 nm and 2340 nm. A variety of DFB-LDs are available telecom and spectroscopy applications! ...

DFB lasers suitable for near infrared molecular absorption. Available wavelength range between 1260 nm and 2340 nm. A variety of DFB-LDs are available ...

The acronym DFB laser stands for distributed feedback laser. Their key features relative to other semiconductor lasers are their single longitudinal mode (single frequency) emission profile, ...
