

Thailand Integrated Power Equipment Factory

Specializing in liquid-filled power transformers, the factory meets the highest industry and international standards, designing and manufacturing based on Hitachi Energy's TrafoStar technology platform, ...

Discover why Thailand is emerging as a leading manufacturing hub, driven by infrastructure, skilled labor, and a shift toward high-tech industries.

The factory, operational since 1990, produces liquid-filled power transformers that help move and stabilise electricity across grids. Built on Hitachi Energy's TrafoStar technology, it is one of ...

Hitachi Energy will invest \$14M (455 million THB) to expand its transformer factory in Samutprakarn, Thailand, boosting production capacity by 60% to meet rising global electricity demand.

Our expertise encompasses the development of robust machinery engineered to harness, distribute, and optimize power across diverse sectors, from renewable energy to traditional utilities.

Full System Engineering is a trusted Thai engineering company specializing in energy systems, steam boilers, compressed air systems, and industrial infrastructure for factories and power plants.

We collaborate closely with local utilities and power producers to ensure reliability of power supply, while also supporting the country's push for cleaner electricity.

Thai Maxwell Electric Company Limited (TME) is a leading manufacturer of distribution and instrument transformers, and other synergistic industrial products in Thailand.

The Thailand facility represents Greensky's largest overseas investment to date. Spanning 13,500 square meters, the plant will integrate fully automated production lines for BLDC ...

Hitachi Energy will invest \$14M (455 million THB) to expand its transformer factory in Samutprakarn, Thailand, boosting production capacity by ...

Delta is a leader in power and thermal management solutions and electronic component manufacturing. Our portfolio encompasses power electronics and systems for IT, automotive, telecom, and industrial ...
