

We carry an array of traffic rated underground pull box sizes and specifications, including Quazite boxes made from pre-cast polymer concrete. Our pull boxes perform to make your underground electrical ...

Terra-Vaults is a leading manufacturer of high-performance underground enclosures, engineered for durability, safety, and long-term reliability. Our FRP and Polymer Concrete product lines are ...

We design and manufacture custom electrical enclosures for the railway and tunnel sector, ensuring safety, reliability and long-term performance in the harshest environments.

Manufacturer of underground electrical transmission and distribution cable systems for commercial and industrial sectors. Products include cable clamps, oil filled cable terminations, grounding boxes and ...

Founded in 2021, EWJ focuses on delivering high-end solutions in distribution boxes and low-voltage electrical systems. Guided by the core values of integrity, innovation, and customer-first, we are ...

We manufacture the auxiliary equipment needed for a complete box-culvert jacking system - shields, excavators, conveyors, muck carts and track, hydraulic power units (HPUs), underground lubrication ...

VIOX offers high-quality stainless steel distribution boxes in 201, 304, and 316 grades. From cost-effective indoor solutions to corrosion-resistant options for harsh environments, our range ensures ...

An upgradable, re-enterable cable management vault system series, BULK redefines the standard with one universal body that can easily meet the ...

Waskey's precast electrical pull boxes and handholes are engineered to provide secure, accessible housing for underground electrical systems. Designed for durability and ease of installation, these ...

Hubbell Power Systems, Inc. manufactures three distinctive brands of underground enclosures, all built with the same attention to quality and performance. Each ...

The TAP (Tunnel Application Power) boxes from Phoenix Contact have been specially developed for safe, fireproof, and simple power distribution in tunnels. Starting from the main distribution, the TAP ...

Environmentally friendly, convenient, and naturally fire-resistant, they are ideal for projects that require cabling junction access. Our pull boxes and handholes are ...

WE-POWER developed the TDLB to withstand harsh conditions in accordance with BS6164, which provides

useful guidance on voltages, equipment enclosures, cabling, electrical protection and ...

Find durable underground electrical handhole boxes ideal for construction projects at Hubbell. Ensure safe and efficient installations with our reliable solutions.
