

High performance base unit with integrated Intel XEON processor of the 11th generation. The base units contain the component "Extended Real Time" (ERT). This component improves the latency and the ...

Explore CommScope's versatile non-hardened Fiber Access Terminals--designed for quick installation, long-life service, and true network flexibility.

Built with high-density configurations and rugged materials, this MST box is perfect for installations in harsh environments like 4G/5G towers and telecommunication systems. It supports up ...

Fiber Optic Termination Box is used in the end termination of drop cables in residential buildings and villas, to fix and splice with pigtails. UnitekFiber supplies various type of fiber Optic termination box ...

This terminal box provides a hardened, protective housing for your fiber connections, shielding them from dust, moisture, and physical damage. The modular, pre-terminated design allows for plug-and ...

2 port wire entry design, two wires can be entered at a time, or one wire can be taken in and one wire can be taken out. The built-in fiber splicing disc protects the fiber splicing point from loosening and ...

Explore reliable FTTH terminal boxes for secure fiber termination and distribution. Wall-mounted design, robust build, for home and industrial optical networks.

The VN8900 network interface is a modular designed interface hardware with various possible channel combinations for CAN FD, LIN, FlexRay, J1708 and K-Line. A particular focus here is on parallel ...

2 port wire entry design, two wires can be entered at a time, or one wire can be taken in and one wire can be taken out. The built-in fiber splicing disc protects the fiber ...

Whether your design requires support for direct buried, duct, aerial lashed or self-supporting architectures, these terminals adapt to any condition. Additionally, the smaller form factors drive ...

This wall mounted fiber termination box is equipped with 8 external adapter ports, designed to organize, protect, and manage fiber splicing and terminations for indoor network applications.

Explore reliable FTTH terminal boxes for secure fiber termination and distribution. ...

Fiber Optic Termination Box is used in the end termination of drop cables in residential buildings and villas, to fix and splice with pigtails. UnitekFiber supplies ...
