Amps, Watts and Volts Optical Power, DB and DBM OTDR, Link Budgets and Link Losses "Optical Power" is the other common question that arises. Optical Power is expressed in "dBm" (decibel milliwatt) -- not to be confused with "dB". The unit "dB" expresses the difference between two "dBm" values or the loss of a span of optical fiber. A measurement of 0 dBm using an Optical Power meter indicates 1 milliwatt of power. It is important ...
