

Maple Systems industrial ethernet network switches are built with industrial grade components, tested in-house, and certified for reliable operation in harsh environmental conditions.

Antaira offers a variety of industrial Ethernet switches, including industrial-grade network switches, DIN mount switches, and Ethernet switchboards, that can perform efficiently in adverse weather ...

FS DIN rail-mounted industrial switches feature IP41 dust and waterproof protection. These industrial Ethernet switches ensure reliable connectivity with their high-performance, compact, and durable ...

Rugged Industrial Ethernet Switches with PoE, 5-10 ports, 10/100/1000Base-T and fiber support. Built to withstand -40°C to 75°C, shocks and vibration.

Huawei CloudEngine S5735I-S-V2 series industrial switches (DIN rail-mounted) are next-generation industrial switches that provide flexible all-gigabit access and GE/10GE uplinks. They stand out with ...

FS Industrial Switches Overview With the development of industry, more and more factories need to build industrial automation systems to meet the needs of modern industry, such as high reliability, ...

This series of industrial POE switches can be widely used in wind, electricity, assembly automation, subway PIS, power SCADA, sewage treatment, metallurgy, intelligent transportation, rail ...

Extreme Industrial Switches are a family of ruggedized Layer 2 switches designed to operate under harsh environments and extended temperature conditions. They provide continuous uptime, ...

Keep your industrial operations running smoothly with secure, compact, Power over Ethernet (PoE)-enabled, and easy-to-manage Industrial Ethernet 1000 Series DIN-rail switches. Get reliable, secure ...

Housed in a sturdy IP30-rated DIN-rail enclosure with wall mount options, the FP2008E is a fully manageable Layer 2 Ethernet switch, pre-loaded with a user-friendly web management console ...
